RE: Himco Landfill, Elkhart, Indiana
General Notice of Potential Liability

Dear Sir or Madam:

I will try to be brief and to the point.

1. Himco has for twenty five years hauled our trash.
2. The same trash that is hauled today, is the same trash that was hauled twenty five years ago.
3. Where it was hauled, is unknown by us. In prior years who questioned where the trash was being dumped. At the present time our trash is being hauled to the Elkhart County Landfill Site. We have never followed their trucks, but when questioned, they indicated that is where our trash is being dumped. Nowadays there are very few landfills, so we assume they are telling us the truth.
4. Since the earliest EPA notices, we questioned the amount of trash they hauled from our location. I can only say our operation has not changed much in twenty five years. Being their customer for twenty five years, they do not know the quantity of trash hauled because they admitted to not having any records for that period.
5. We feel that since sodium is not an element in our trash, we should be eliminated from any expense concerning this landfill site.

Sincerely,

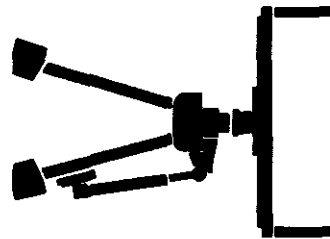

Thaddeus L. Jarosz
Elkhart Plant manager
